

REMARKS

By the foregoing amendments, Applicants are revising the application as summarized below.

- The second paragraph of the detailed description section is being revised to correct a typographical error.
- The “summary of the invention” section is being revised in accordance with 37 C.F.R. 1.73 (“Summary of the invention”) to make the summary “commensurate with the invention as claimed.” The first paragraph of the revised summary paraphrases independent claim 38, and the second paragraph paraphrases claim 53. Thus, the revised summary is commensurate with the invention as claimed. Further, as the claims have been found to be supported by the original disclosure, no new matter is being added.
- The “abstract of the disclosure” section is being revised to more closely reflect the claimed subject matter.

If any issues remain, the Examiner is invited to call Applicants’ representative at his direct dial number of 949-721-2950.
